

## **LISTING OF CLAIMS:**

1.(Currently amended)        A hoist for relocating at least building material, wherein said hoist is suspended from a crane, said hoist comprising:

a “C” shaped frame having two arms, one arm being an upper arm and the other arm being a lower arm;

a sliding means disposed at the front end of the upper arm of said frame for sliding said frame on a floor;

a hooking means comprising a hook connected to the lower arm of said frame for suspending a material tray on said frame.

a lifting cable for connecting the frame to a crane and for adjusting the distance of said hook from said frame when said frame is lodged on the floor.

2. (Cancelled)

3. (Original)    A hoist for relocating at least building material as in claim 1, and wherein said sliding means is a wheel.

4. (Original)    A hoist for relocating at least building material as in claim 1, and wherein said hooking means is at least vertically relocatable with respect to said frame.

5. (Original)    A hoist for relocating at least building material as in claim 1, and wherein said hooking means is horizontally relocatable along the lower arm of said frame.

6. (Cancelled)
